

Chris Heibel

Software Engineer

Profile

I'm a software engineer that thrives under pressure and have worked in many different fields from ski lodges to security and demolition. Those experiences made me realize that I wanted to make a career doing something I enjoy, building things.

Experience

General Assembly Software Engineering Immersive, Denver, CO

June 2020 — September 2020

- Immersive Engineering program with 500+ hours of full stack experience.
- Worked on teams of 3-4 to develop React applications.
- Completed 4 projects in allotted time frame.
- Collaborated with other team members on projects and research.

Projects

- Sick Spots, an application to guide you to new locations where you can ski, mountain bike, or just all around get out and enjoy yourself.
- DevSpot, a social media applications for developers.
- Peaks, an application to log peaks summited, and view others peak experiences.
